

An Ultimate Driving Experience

Traffic Jams Speed Shop has developed a multiple classification fall road rally with 100% of the proceeds benefiting **Sparkling Survivor/Breathe Inc.**, a cancer concierge, 501©3 organization. We are asking you to help make this road rally and the financial gift to **Sparkling Survivor** a financial success.

This rally is a multi-sponsor rally. This means that--

- **The drivers will be incentivized to be sponsored by friends, family and community.**
- **We are also asking for your financial support.**

This dual approach will greatly increase the financial gift received by Sparkling Survivor.

On October 8 every driver will experience a fall road course through Wisconsin's Kettle Moraine State Forest. A rustic trip through glacial carved pathways.

This unique trip is planned so vehicles of all types can participate. **Slower Vintages** will travel together, **motorcycles** will have their own group, and **classic vehicles** capable of posted speed limits will not interfere with the other groups.

To enhance this ultimate driving experience – safety considerations include road marshals, break-down chase vehicles, coffee, lunch and rest breaks. No car event is complete without raffles, and gift bags.

Traffic Jams Speed Shop & Sparkling Survivor wishes to thank you for your sponsorship!
